## Optical Component Integration Services

Advanced Interconnect (AI) offers the following optical component integration services:

- ✓ Component termination, testing and packaging
  - Device integration:  
DWDMs, Dispersion compensators, Array modules  
DCMs, Couplers, Splitters, Modulators, Collimators,  
Value Added Modules (VAM), Sources, Detectors,  
Circulators, etc.
  - Chassis Assemblies
- ✓ Concept Engineering to assure:
  - Esthetics
  - Reliability
  - Manufacturability
- ✓ Fusion splicing
- ✓ Reliability and Qualification Engineering Services
- ✓ Test/Launch Boxes- custom sizes and configurations
